RE: Park Lawn Rejection; page 17 of the “GO Regional Express Rail Update”

Mr. Prichard and Mr. McCuaig,

I am a representative of the Waterscapes building at 80 Marine Parade drive, part of the Humber Bay community association. Our building has approximately 350 suites and residents who are expecting reasonable transit representation for our community. The decision by metrolinx to not have a GO stop at Parklawn and Lakeshore is unreasonable and has outraged many residents in this area. We have a community which has a dense population with a traffic flow issue, this area is in need of a GO stop and residents have moved into this area with the expectation that responsible transit decisions will be made.

Metrolinx needs to reconsider their decision of overlooking this community. Development in this area will be going on for many years and we will become a gridlocked, bottlenecked community of taxpayers who have been denied this service, it is an urgent situation and we ask that you reconsider your decision....please!

We very much support councilor Grimes and Di Ciano, MPP Peter Milczyn, MP James Maloney and the Humber Bay Shores Condominium Association in their appeal to Metrolinx to include the Park Lawn Go Stop proposal as soon as possible,

Thanks for your time and we look forward to your followup.

Sherali Najak
