Transit Project Assessment Process - Public Meetings

Our Greater Toronto and Hamilton Area (GTHA) is now home to nearly 7 million people – heading towards 10 million by 2041. This growth is a sign of success and opportunity. But as we grow, so too must our transportation network – the lifeblood that connects this great region and each of our communities.

Metrolinx, an agency of the Government of Ontario, is bringing more transit and more connections to more places within the GTHA. Every community transit project, big or small, plays a vital role in the regional transportation system. We want to share our plans and get your feedback.

Starting in November we will be hosting community open houses to share information and updates on three of Metrolinx’s projects to build new track and electrification infrastructure. We will be seeking your input on these specific plans and feedback on proposed mitigation strategies:

- **GO Rail Network Electrification Transit Project Assessment Process (TPAP)** (Hydro One as co-proponent): metrolinx.com/electrification
  - Environmental Baseline Condition Reports have been prepared, Impact Assessment Reports to evaluate potential environmental effects of the project are underway, and stakeholder consultation is in progress. The project is currently in the Pre-Planning Phase of the TPAP.
  - The focus of this round of public meetings will be to provide an update on the project and conceptual design of the Traction Power Supply and Distribution components.

- **Barrie Rail Corridor Expansion TPAP**: metrolinx.com/RERBarrie
  - The environmental assessment studies are prepared, which include a detailed overview of impacts to evaluate the environmental effects of the preliminary design. The project is currently in the Pre-Planning Phase.
  - The focus of this round of public meetings will be to provide an update on the project and seek feedback on the environmental impacts.

- **Lakeshore East-Don River to Scarborough Expansion TPAP**: metrolinx.com/DonRiverScarborough
  - The project is currently in the Pre-Planning Phase with existing conditions studies completed.
  - The focus of this round of public meetings will be on existing conditions.
  - These meetings will also include information on the Regional Transportation Plan (RTP) which guides the work being done to transform the transportation network in the GTHA. A review of the RTP is underway, providing the opportunity to formally incorporate new insights into the plan, while ensuring we maintain momentum on the projects underway. Information updates on other key studies and projects in your neighbourhood will also be provided.

We invite you to join us in person at the public meeting nearest you to find out more. (Or, participate online at metrolinxengage.com)
