

TRANSFORMING TRANSIT IN YOUR AREA

Cooksville GO Station Redevelopment: Pedestrian Bridge Lift Completed

This past weekend, a new pedestrian bridge was successfully lifted and installed at Cooksville GO. The pedestrian bridge will connect the new parking structure to the rail platform. We encourage you to stop by and take a look!

QUICK FACTS

- The installation was quite a process and took four hours to complete
- The bridge was fully constructed before it was lifted and weighs about 110 metric tonnes
- 56 glass panels were used to clad the bridge
- When the bridge was lifted, it was spun 90 degrees to be put into place

WHAT'S NEXT

- By spring 2019 we anticipate completion of the new parking structure, station building, pedestrian bridge and west tunnel!
