

Sanitary Sewer Line Installation

Mid-September - October, 2020

What?

As part of the construction of the future Finch West Light Rail Transit (LRT) line, crews will install a new sanitary sewer line on Humber College Blvd, from east of Hwy. 27 to Westmore Drive, and connect it to an existing sanitary sewer line. The sanitary sewer carries sewage from bathrooms, sinks, kitchens, and other plumbing in homes/businesses to wastewater treatment plants.

Traffic will be shifted to the south side of the street while the storm sewer installation is taking place on the north side. Crews will:

- Excavate the road and dig a trench
- Install the new sanitary sewer line
- Backfill and restore the roadway when the work is complete
-

WHAT TO EXPECT:

- Traffic will be shifted to the south on Humber College Blvd.
- One eastbound and one westbound lane will remain open.
- Westmore Dr. will be closed for four days to allow workers to connect the new sanitary sewer line to the old one.
- Noise, dust and other inconveniences. We will make every effort to minimize impacts. We appreciate your patience.

WORK HOURS:

- The entire work will take approximately two to three weeks to complete and is expected to start in mid-September.
- The work will generally happen from Monday to Friday, but work on the crossings will happen over the weekends.
- The working hours are from 7 am to 7 pm.
