

Partial Closure of Arboretum and West Humber Trails

November 5, 2020 - November 20, 2020

What?

As part of the Finch West Light Rail Transit (LRT) project, a crew will relocate utilities in the vicinity of the future Humber College Stop, located on the southwest corner of Highway 27 and Humber College Blvd. As part of that work, they will install a new storm drain outfall in the ravine on Toronto and Region Conservation Authority (TRCA)'s lands just west of Hwy 27 along the Arboretum Trail. Outfalls are exit points where stormwater enters a waterbody and reduces additional erosion impact to the surrounding natural area. During the outfall installation, the north leg of the Arboretum Trail will be closed to protect the public. The work is expected to take about two weeks.

WHEN AND WHERE:

- The north leg of the Arboretum Trail (see map above) will be closed from November 5 until November 20, 2020, approximately.
- Pedestrians will be able to use the south leg of the trail.
- Work may be delayed due to weather conditions or unforeseen circumstances.

WHAT TO EXPECT:

- Temporary closure of the north leg of the West Humber Trail.
- Placement of erosion and sediment control devices before construction begins.
- Heavy trucks and equipment will be active in the work area.
- Excavation to install pipes.
- Please take care when walking near work sites.

Visit Our Metrolinx Finch West LRT Community Relations Office:
Address: 2540 Finch Avenue West
Hours of Operation:
Monday, Wednesday, Friday, 9:00 a.m. to 5:00 p.m.
Tuesday, Thursday, by appointment.
Tel: 416-202-6500
