

TRANSFORMING TRANSIT IN YOUR AREA

FINCH WEST LIGHT RAIL TRANSIT (LRT)

Information as of December 2018

Oil Pipeline work for the Finch West LRT, Starting Early September

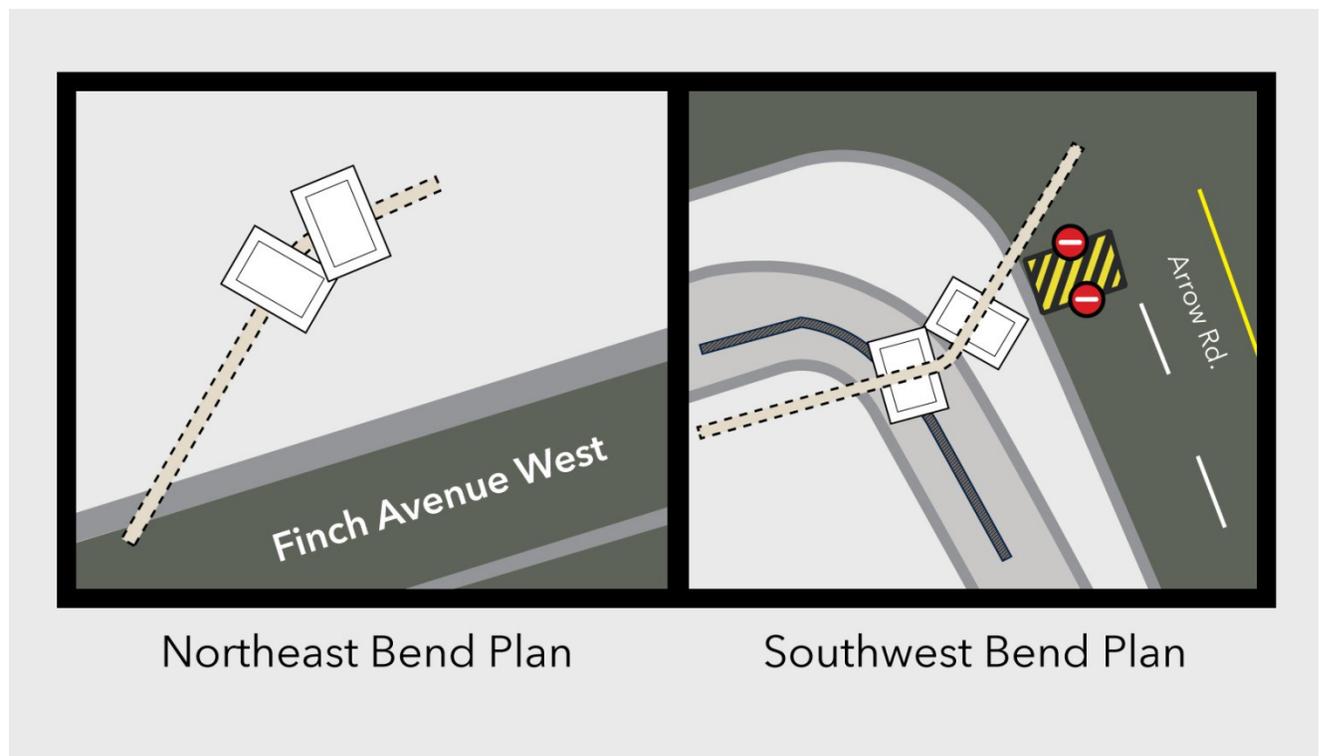

The Finch West Light Rail Transit (LRT) is an 11km LRT running along Finch Avenue West between Keele Street and Humber College. The Finch West LRT will increase capacity and reliability of service along the route, while significantly reducing travel times for transit users on the corridor.

What: As part of this project, Enbridge Pipeline Inc. will excavate northeast and southwest corner of Signet Dr. and Finch Avenue West intersection to ensure the integrity of the oil pipeline and existing casing and to install necessary protective measures for future road widening.

Why: To accommodate the construction of the new Finch West LRT.

When: Starting early September until end of May 2019. Some work may be rescheduled due to weather conditions and unforeseen circumstances.

Where: The work will take place on northeast and southwest corner of Signet Dr. and Finch Avenue West intersection. There will be a partial lane closure on Arrow Rd for the duration of the work.

Transit Information

For the safety of transit riders, TTC bus stops in the affected area may be relocated. If required, additional signage directing pedestrians will also be installed.

Pedestrian and Traffic Details

During construction, lane reduction is required. We do not anticipate full road closures. Driveways will remain accessible to residents.

Please take care when travelling near construction areas. Pedestrian walkways will remain open. Please watch for additional signs directing pedestrians, as detours may be required.

Due to the current volume of traffic in this area, traffic delays may be expected during construction. Signage will be posted in affected and surrounding areas to indicate partial lane closures and traffic delays.

We appreciate the patience of our neighbours and others within the community. We will endeavour to minimize the impact of the partial lane closure and noise from construction.

Work Hours

The work will be carried out between 7:00 a.m. and 11:00 p.m., 6 days a week in accordance with City of Toronto bylaws.
