

FINCH WEST LRT – Transforming Transit in Your Area

Construction Notice

Information as of May 27, 2020

What is the Finch West Light Rail Transit (LRT)?

The Finch West LRT is a light rail transit project that will bring 11 kilometres of modern, reliable rapid transit to northwest Toronto. It will have 18 stops, including 16 surface stops, plus an underground interchange station at Finch West subway. It will have a below-grade terminal stop at Humber College and will connect to other local transit services like GO, MiWay, Viva, and Züm. The Finch West LRT will provide rapid transit for the Jamestown, Rexdale and Black Creek neighbourhoods, as well as vital connections between communities and supporting growth in northwest Toronto

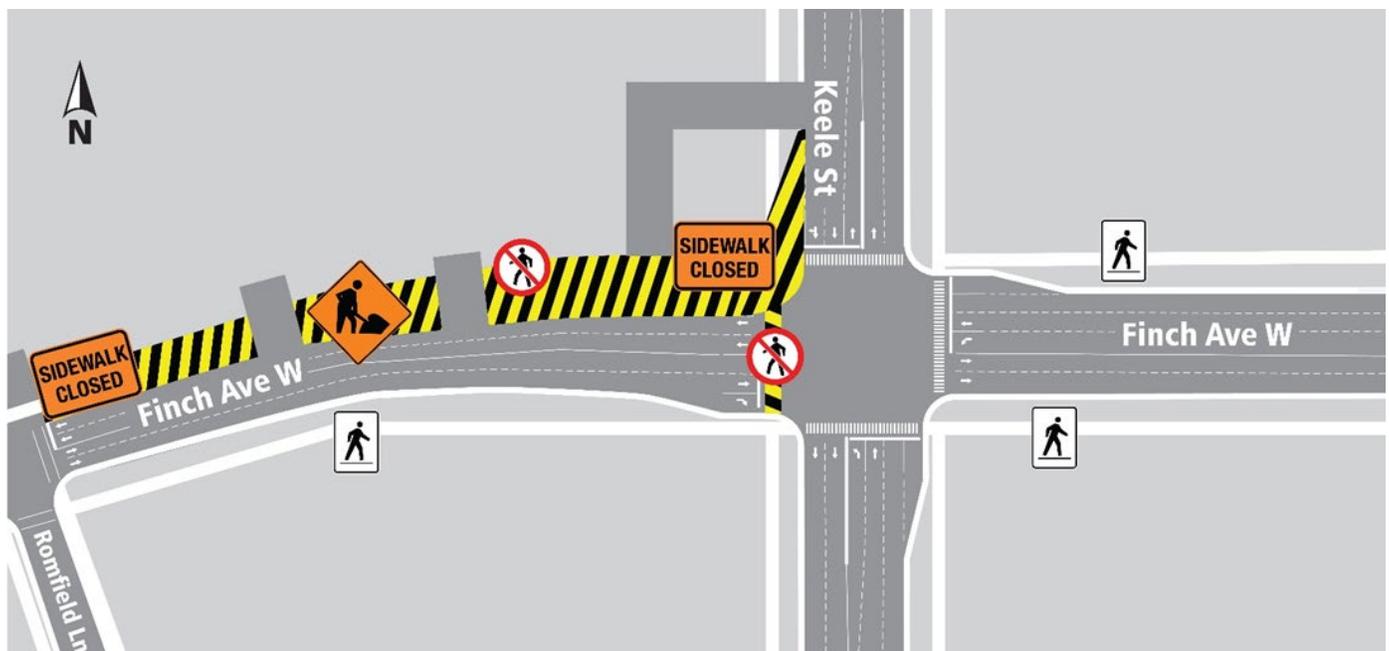

UPDATE. Installing Piles for the new Finch West Station Finch Ave. W. from Romfield Ln. to Keele St. June 2020

What: In April 2020, as part of the Finch West Light Rail (LRT) project, several crews started support of excavation works for the future Finch West Station by installing piles into the ground before excavation of the station can start.

Pile drilling is a common method used for the support of excavations. Using a pile rig, a crew drills holes into the ground and fills them with concrete and steel piles to create “columns” that will support the excavation during construction. This also eliminates the risk of soil movement that might otherwise affect surrounding utilities or structures.

Drilling is being conducted in phases within the Finch Ave W. and Keele St. area. It produces noise and vibration in the immediate area. Metrolinx’s contractor is monitoring noise and vibration levels throughout the work to make sure they are always within permitted ranges.

Pile drilling is ongoing on the north side of Finch Ave. W. from Romfield Ln. to Keele St. This area will be extended to the east from mid-June 2020 until mid-July 2020, approx.

FINCH WEST LRT – Transforming Transit in Your Area

Construction Notice

Information as of May 27, 2020

When and Where:

Starting in **mid-June 2020** and lasting for three (3) weeks, approximately, the drilling area on the north side of Finch Ave. W. will be extended to the east.

Work Hours:

Drilling will continue to take place between 7:00 am to 11:00 pm, including Saturdays as required to meet schedule.

What to Expect:

- Heavy trucks and equipment in the area.
- Noise and vibration from construction activity and equipment.
- Dust from drilling activity, which will be managed with water trucks during working hours.
- Flaggers on site when necessary to ease traffic access and ensure public safety.
- Please obey all posted construction signs and do not enter the work zone.
- Please take extra care when walking near work sites, and always make eye contact with the driver before crossing in front of any equipment or vehicle.
- Operational factors and weather may affect the schedule.

Pedestrian, Traffic and Bus Stops Details:

- Access to schools, churches, and businesses will be maintained.
- Access for Emergency Vehicles will be maintained.
- The sidewalk on the north side of Finch Ave. W. from Romfield Ln. to Keele St. will remain closed.
- The sidewalk on the south side of Finch Ave. W. from Romfield Ln. to Keele St. will remain open.
- The crosswalk at Finch Ave. W., just west of Keele St. will be closed.
- The dedicated right turn lane from Keele St. southbound onto Finch Ave. W. eastbound will be closed. Right turns will still be allowed from the middle lane.
- Bus stop (# 2611), for routes 36B/336 Finch West, located at the north east side at Keele St. and Finch Ave W. will be closed.
- Bus stop (#2626) located at the north east side at Romfield Ln. and Finch Ave W. will be relocated to the west side of the driveway.
- Access to TTC will be maintained at all times.
- Please visit www.ttc.ca for more information.
