

FINCH WEST LRT – Transforming Transit in Your Area

Construction Notice

Information as of October 9, 2019

What is the Finch West Light Rail Transit?

The Finch West LRT is a light rail transit project that will bring 11 kilometres of modern, reliable rapid transit to northwest Toronto. It will have 18 stops, including 16 surface stops, plus an underground interchange station at Finch West subway. It will have a below-grade terminal stop at Humber College, and will connect to other local transit services like GO, Miway, Viva, and Züm. The Finch West LRT will provide rapid transit for the Jamestown, Rexdale and Black Creek neighbourhoods, as well as vital connections between communities and supporting growth in northwest Toronto.

Construction Summary for October to November 2019

Upcoming Works

We continue with preparatory activities to build you the new 11-kilometre Finch West light rail transit (LRT) line. Building the underground station, stops and required infrastructure along Finch Avenue West, from Keele Street to Highway 27 and Humber College Boulevard, requires us to do many activities in the roadway and boulevards, including some sidewalks.

This fall 2019, our contractor will be relocating water and hydro utilities along Finch Avenue West. Relocation of utilities and tree removals are required for road widening to accommodate the LRT tunnel, tracks, and guideway.

Activities to expect from Tobermory Drive to Tangiers Road:

- Tree removal from Tobermory Dr. to Tangiers Rd.
- Lane closures to excavate, remove and relocate watermain and storm sewer from Tobermory Dr. to Romfield Ln.
- Street furniture removals (i.e. litter bins, TTC shelters, and benches) from Tobermory Dr. to Tangiers Rd.
- Installation of temporary traffic signals from Tobermory Dr. to Keele St.
- Removal of concrete medians from Tobermory Dr to Sentinel Rd.
- Installation of temporary steel plate in roadway to cover manhole excavated for utility work
- Relocation of hydro poles on the north side of street from Keele Street to James Cardinal McGuigan Catholic High School

Activities to expect in the Highway 27 Area:

- Removal of concrete medians and installation of temporary traffic lights east of Hwy 27
- Removal of existing traffic lights
- Relocation of hydro poles east of Highway 27 and on Highway 27 (north of Finch Ave. W and south of Humber College Blvd)

Contact:

We understand that construction can be disruptive, and we will do our best to keep you informed. For more information about the Finch West LRT project, please contact the Metrolinx Finch West LRT Community Relations Team at 416-202-6500 or email finchwest@metrolinx.com. You can also visit the community office at 2450 Finch Avenue West.

Stay up to date by following us on Twitter @FinchWest LRT office or visit www.metrolinx.com/finchwestlrt.

We thank you for your continued patience as we work to build rapid transit.
