

TRANSFORMING TRANSIT IN YOUR AREA

FINCH WEST LIGHT RAIL TRANSIT (LRT)

Information as of March 2019

Overnight Lane Reduction Coming to On/Off-Ramps at Hwy. 400 Bridge and Finch Avenue West Expected Timeline: Early March 2019

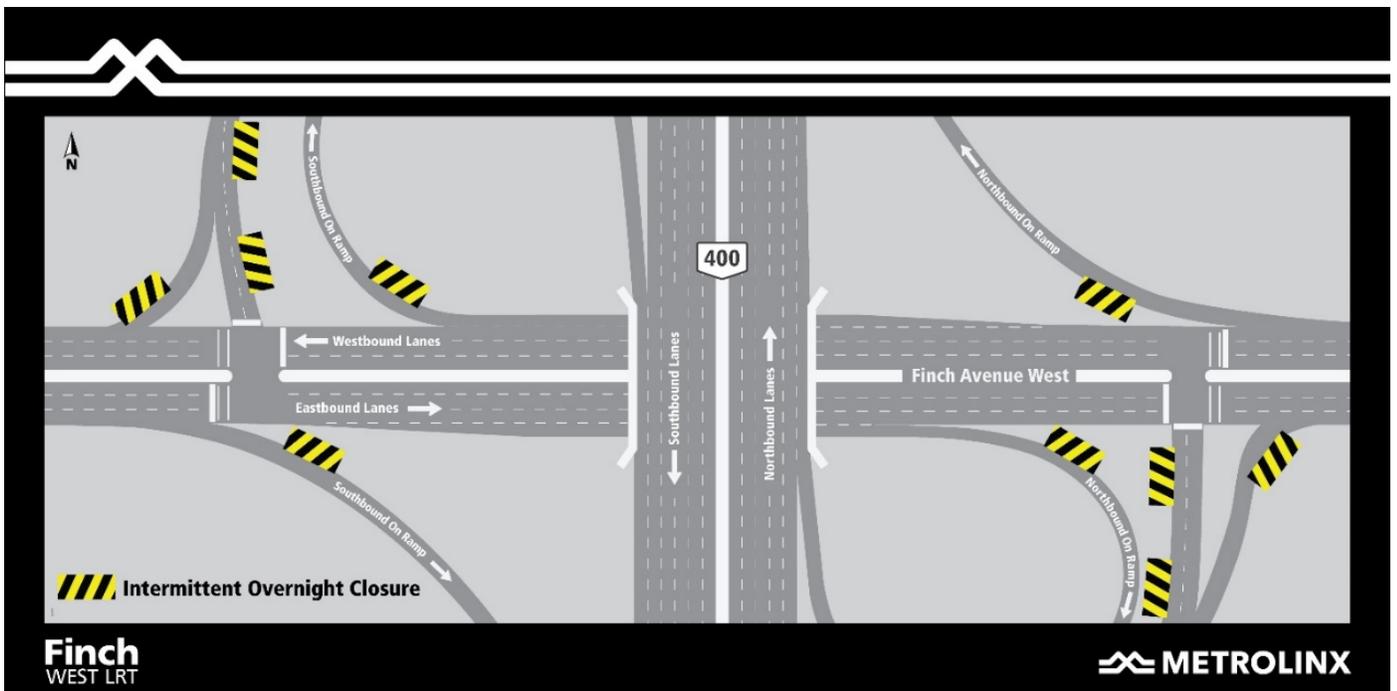

The Finch West Light Rail Transit (LRT) is an 11km LRT running along Finch Avenue West between Keele Street and Humber College. The Finch West LRT will increase capacity and reliability of service along the route, while significantly reducing travel times for transit users on the corridor.

What: Construction crews will be drilling boreholes to determine ground conditions at the on and off-ramps to the Highway 400 Bridge at Finch Avenue West.

When: Overnight work (from approximately 11 p.m. to 5 a.m.) is expected to start as early as March 4, 2019 and continue for one to two weeks, weather permitting.

Why: Before starting rehabilitation activities on the Highway 400 Bridge –which is included in the Finch West LRT project -- Mosaic Transit Group (Metrolinx's constructor) is confirming ground and soil conditions.

Where: The crew will drill boreholes along the on and off-ramps to Highway 400 at Finch Avenue West. Expect lane restrictions.

Pedestrian and Traffic Details: Access to Highway 400 on and off-ramps at Finch Avenue West will remain but short-term lane reductions will occur in areas where drilling is taking place.

Nearby residents and businesses can expect to see heavy trucks and equipment in the area as the crew move from one bore hole to the next. There may be some noise related to drill and other construction equipment. Please take care when travelling near work sites.

Work Hours: Work will take place between 11 p.m. and 5:00 a.m. from Monday to Friday.

Contact: For more information about utility and soil condition investigations on the Finch West LRT project, please contact the Metrolinx Finch West LRT Community Relations Team at 416-202-6500 or email finchwest@metrolinx.com.
