

# TRANSFORMING TRANSIT IN YOUR AREA

## FINCH WEST LIGHT RAIL TRANSIT (LRT)

Information as of November 2018

### Gas Line Relocation for Finch West Light Rail Transit Starting December 2018

The Finch West Light Rail Transit (LRT) is an 11km LRT running along Finch Ave. West between Keele Street and Humber College. The Finch West LRT will replace the 36A bus, increasing capacity and reliability of service along the route, while significantly reducing travel times for transit users on the corridor.

**What:** As part of this project, Enbridge Gas Distribution (Enbridge) will be relocating natural gas pipelines along the Finch West LRT route.

**When:** The work will start approx December 1st on Weston Rd, moving towards Toryork Dr. Time lines may be affected due to weather conditions or unforeseen circumstances.

**Where:** Work will take place on Finch Ave. West between Weston Rd. and the railway bridge; and between Weston Rd. Finch Ave. West and Toryork Dr. Traffic at Finch Ave. West and Weston Rd. will be affected for the duration of the work.

### **Transit Information**

For the safety of transit riders, TTC bus stops in the affected area will be relocated. If required, additional signage directing pedestrians will also be installed.

### **Pedestrian and Traffic Details**

During construction, lane reductions or short-term road closures may be required. Driveways will remain accessible to residents. Plazas with multiple entrances may have one or more entrance temporarily closed periodically during construction, however, at least one entrance will remain open at all times.

Please take care when travelling near construction areas. Pedestrian walkways will remain open. Please watch for additional signs directing pedestrians, as detours may be required.

Due to the current volume of traffic in this area, traffic delays are expected during construction. Signage will be posted in affected and surrounding areas to indicate road closures and traffic delays.

### **Work Hours**

Most of the work will be carried out between 7:00 a.m. and 11:00 p.m., 7 days a week. Overnight work may be required to reduce the impact to local traffic.

For more information about this natural gas line relocation work, please contact Enbridge at 416-495-4809 or [enbridgegasmedia@enbridge.com](mailto:enbridgegasmedia@enbridge.com).
