

# New Access and Laydown Areas

September/October 2020

Today, if you live in Oshawa, Toronto, or anywhere in between, you enjoy two-way, all-day service seven days a week. We're going to take it up a notch. With GO expansion on the Lakeshore East line, we're bringing 15-minute two-way service between Union Station and Oshawa. Faster, more frequent travel is coming your way. Forget the car - welcome to your future.

## What is happening?

As part of the GO Expansion Program, Early Works Project (Fibre Optic Cable Relocation), there will be two new construction access locations along the Lakeshore East Corridor. These locations are shown in the maps above. One location is near Norwood Terrace and Kildonan Park on the south side of the corridor. The other location, also on the south side of the corridor, is the parking lot at Wildwood Crescent and Kingsmount Park Road beside Wildwood Crescent Playground. The Norwood Terrace location will be used as a corridor access for the construction crew starting early October. The Wildwood Crescent location will be used as a corridor access and a construction laydown area starting mid-October.

## **What to Expect**

Residents can expect to see construction vehicles, equipment, reel trailers and conduit reels at these locations. The Norwood Terrace location will mostly be used as a corridor access. Whereas, the Wildwood Crescent location will be a corridor access as well as a construction laydown area. Activity can be expected throughout the overnight hours.

The construction crew are aware they are working in residential neighbourhoods and whenever possible, try to minimize construction impacts. However, noise, vibration, dust, and night lighting can be expected at night. For this project, these locations are expected to be in use for several months.

## **Questions**

If you have any questions or concerns or would like to subscribe to the Toronto East e-newsletter, please do not hesitate to email us at [TorontoEast@metrolinx.com](mailto:TorontoEast@metrolinx.com).

Thank you for your patience as we work to transform the rail corridor in your area.
