

TRANSFORMING TRANSIT IN YOUR AREA

Temporary Road Closure at Havendale Rd.- Agincourt Dr. to Belgreen Ave.- July 7th, 13th & 20th

Metrolinx, an agency of the Province of Ontario, is working to transform the way the region moves by building a seamless, convenient and integrated transit network across the Greater Toronto and Hamilton Area (GTHA). Over the next ten years, Metrolinx is transforming the existing GO rail system to deliver a whole new rapid transit experience to your community. With more frequent train service you'll have more options to get you where you need to go.

THE LOCAL PROJECT

A multi-year construction program to expand and improve a 17-kilometre segment of GO Transit's Stouffville line in Scarborough and Markham is well underway. Expanding GO service in both directions means upgrading the existing rail corridor by: electrifying the corridor, adding a second track and related signals, and making improvements to stations and railway crossings.

As a part of our improvement to railway crossings, Metrolinx is undertaking road crossing track panel construction & watermain protection work at the railway corridor on Havendale Rd. This work is a part of how Metrolinx is transforming the existing GO rail system to deliver a new rapid transit experience and provide your community with the transit options you deserve.

WHAT TO EXPECT

In order to safely complete this work, Metrolinx has coordinated with the City of Toronto to close Havendale Rd. between Agincourt Dr. and Belgreen Ave. on **Saturday, July 7th from 7:00am to 7:00pm** and from Friday, starting at 10:00 pm, through to Monday, re-opening at 5:15 am on the weekends of **July 13th to 16th & July 20th to 23rd, 2018**.

We are committed to keeping local residents and businesses informed about construction activities and can be reached at the contact information below. Thank you for your continued patience.
