

TRANSFORMING TRANSIT IN YOUR AREA

Upcoming Fence Tie-In Work / Tree Planting & Landscaping (Spring 2019)

Metrolinx, an agency of the Province of Ontario, is working to transform the way the region moves by building a seamless, convenient and integrated transit network across the Greater Toronto and Hamilton Area (GTHA). Over the next ten years, Metrolinx is transforming the existing GO rail system to deliver a whole new rapid transit experience to your community. With more frequent train service you'll have more options to get you where you need to go.

THE LOCAL PROJECT

A multi-year construction program to expand and improve a 17-kilometre segment of GO Transit's Stouffville line in Scarborough and Markham is well underway. Expanding GO service in both directions means upgrading the existing rail corridor by: electrifying the corridor, and making track improvements for regular maintenance and to handle more trains.

WHAT TO EXPECT – Fence Tie-In

Our Contractor will begin the fence tie-in work the week of November 5, 2018 through to mid-December 2018. The work will begin from the Eglinton & Midland area and continue northbound towards Sheppard & Midland. Both wooden fence and wire fence are available so the Contractor can match your existing fence material. For a seamless operation, please ensure that the Contractor has full access to your property by clearing the path to your backyard, unlocking your side gates and removing any items around the intended work area.

WHAT TO EXPECT – Tree Planting and Landscaping (Spring 2019)

Tree Planting (for those applicable): In order to successfully plant the trees and guarantee the longevity of them, it has been determined that it would be best to proceed with this in Spring 2019, due to the current weather. The trees will be planted during the peak season to ensure they grow and mature naturally.

Landscaping: Please note that any work regarding grading (levelling of the earth), sodding and clearing of shrubs will take place during this period and the expectation to restore the area in your backyard to its original state is our top priority.
