

TRANSFORMING TRANSIT IN YOUR AREA

Information as of February 6, 2020

Reidmount Avenue Noise Wall Construction Update Starting February 14, 2020

Dear Occupant/Property Owner:

Metrolinx is working to transform the way the region moves by building a seamless, convenient and integrated transit network across the Greater Golden Horseshoe Area. Metrolinx is transforming the existing GO rail system to deliver a whole new rapid transit experience to your community. With more frequent train service you'll have more options to get you where you need to go.

WHAT IS THE STOUFFVILLE STATIONS PROJECT?

Metrolinx is making major infrastructure improvements to the Agincourt, Milliken, and Unionville GO stations. This work includes the construction of new grade-separated rail and pedestrian bridges at the existing Steeles Avenue East at-grade rail crossing between Kennedy Road and Midland Avenue, which also includes a new road underpass on Steeles Avenue East below the railway corridor.

REIDMOUNT AVENUE NOISE WALL CONSTRUCTION

Starting as early as February 14, 2020, our Contractor will begin removing the existing fencing and retaining wall within Metrolinx easement as part of noise wall construction. Here is what you can expect:

- Temporary fencing will be installed prior to removing the existing fencing.
- Crews will be accessing backyards to remove the existing fencing and install the temporary fencing.
- Temporary fencing will be in place for approximately six months until noise wall construction is completed.
- Trees within the temporary easement that have been permitted for removal or injury by the City of Toronto will be removed.
