

TRANSFORMING TRANSIT IN YOUR AREA

Overnight Track and Signal Work

Timing: February to March 2020

Metrolinx is working to transform the way the region moves by building a seamless, convenient and integrated transit network across the Greater Golden Horseshoe Area. Metrolinx is transforming the existing GO rail system to deliver a whole new rapid transit experience to your community. With more frequent train service you'll have more options to get you where you need to go.

THE LOCAL PROJECT

A multi-year construction program to expand and improve a 17-kilometre segment of GO Transit's Stouffville line in Scarborough and Markham is well underway. Expanding GO service in both directions means upgrading the existing rail corridor by: electrifying the corridor, and making track improvements for regular maintenance and to handle more trains.

WHAT TO EXPECT

Starting as early as **February 3, 2020**, occasional overnight work will take place along the Stouffville GO Train corridor between Sheppard Avenue and Eglinton Avenue. The track and signal work will be **completed in sections** along the corridor and overnight work is **not expected to be continuous in your area**. The work is expected to be completed by the end of March 2020.

Overnight work is needed in order to complete the work safely outside of when the GO Trains are scheduled.

- **Residents may hear some noise during this time.**
- **Additional construction lighting for crews may be used for safety reasons. Spotlights will be pointed away from residential properties.**
- **Residents may feel minor vibrations because of this work.**
- **Every effort will be made to minimize the number of night shifts required.**
