

TRANSFORMING TRANSIT IN YOUR AREA

Information as of December 27, 2019

Temporary Staircase Closure & Sheppard Avenue East North Sidewalk Closure January 20, 2020 to April 2020

Metrolinx is working to transform the way the region moves by building a seamless, convenient and integrated transit network across the Greater Golden Horseshoe Area. Metrolinx is transforming the existing GO rail system to deliver a whole new rapid transit experience to your community. With more frequent train service you'll have more options to get you where you need to go.

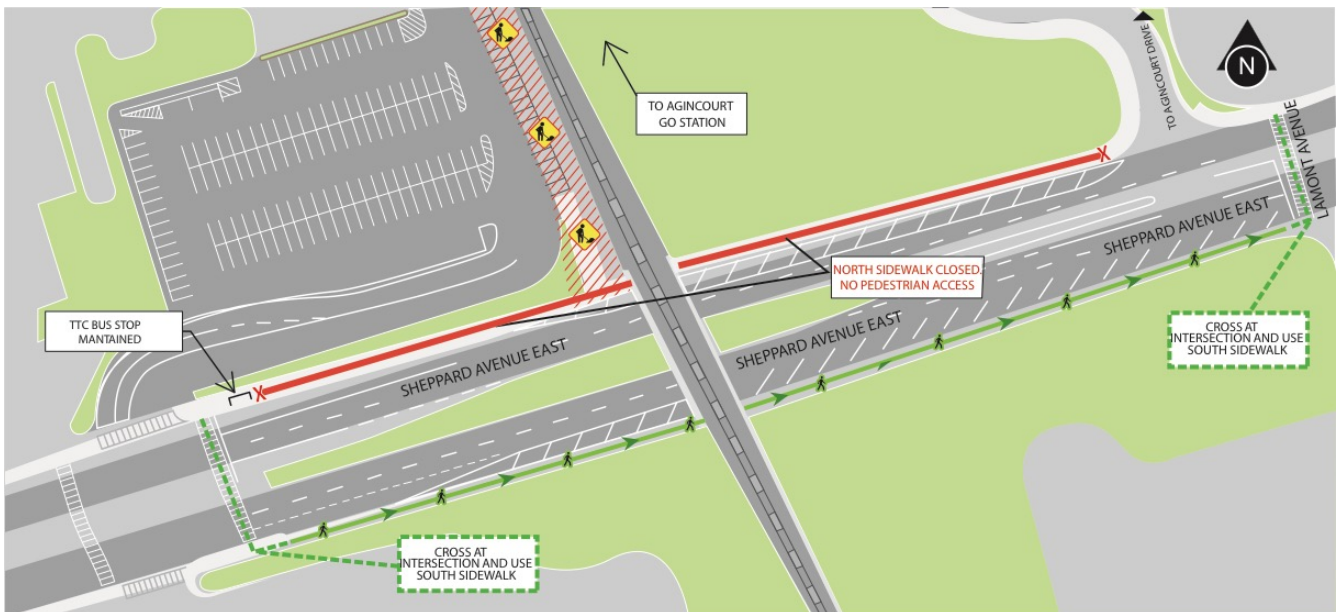

WHAT IS THE STOUFFVILLE STATIONS PROJECT?

Metrolinx is making major infrastructure improvements to the Agincourt, Milliken, and Unionville GO stations. This work includes the construction of new grade-separated rail and pedestrian bridges at the existing Steeles Avenue East at-grade rail crossing between Kennedy Road and Midland Avenue, which also includes a new road underpass on Steeles Avenue East below the railway corridor.

WHAT TO EXPECT

Starting **as early as January 20, 2020, and for several months**, there will be a temporary closure of the staircase off of Sheppard Avenue East to Agincourt GO Station. This closure is required to safely construct a new canopy structure over the staircase.

- **We will also close the north sidewalk along Sheppard Avenue East** between the signalized intersections at the entrance of the Agincourt GO Station and Lamont Avenue. **The south sidewalk will be open at all times.** (See map below)
- **Access to the Agincourt GO Station from Sheppard Avenue East will remain open from the signalized intersection at the entrance of the Agincourt GO Station.**
- There will be **no changes to the TTC Bus Stop** on Sheppard Avenue East.
- Once construction is complete, the staircase and the sidewalk will be re-opened to pedestrians.
- For your safety, please use caution when travelling around construction zones and please obey posted signs.
