

## Biography, Wolfram Schwab

Wolfram Schwab is the Vice President Regional Platforms, Products & Innovation at Alstom. Based in Paris, he has been with the company since 2005 and held several senior management positions within Alstom's sites, product platform and innovation branch during this time. One of his priorities is bringing to market the company's innovative, hydrogen-powered, Coradia iLint train.

He began his career at ABB, later Adtranz and Vossloh Locomotives and successfully secured management roles before joining Alstom. Wolfram graduated with a Mechanical Engineering degree from Leibniz University in Hannover, Germany, and obtained a Welding Engineering degree from SLV Berlin.

Additionally, he is a member of the board of the German railway industry, VDB.
