

Gas Line Relocation for Finch West Light Rail Transit

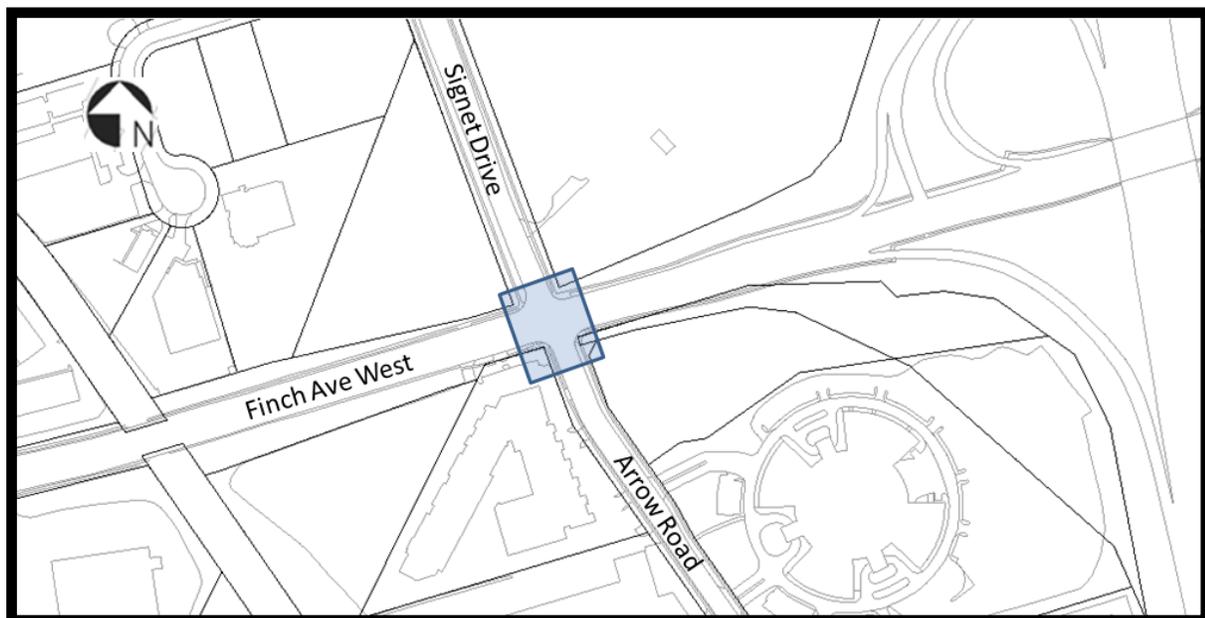

The Finch West Light Rail Transit (LRT) is an 11km LRT running along Finch Avenue West between Keele Street and Humber College. The Finch West LRT will replace 35 peak period buses, increasing capacity and reliability of service along the route, while significantly reducing travel times for transit users on the corridor.

What: As part of this project, Enbridge Gas Distribution (Enbridge) will be relocating natural gas pipelines along the Finch West LRT route.

Why: To accommodate the construction of the new Finch West LRT, Enbridge is required to lower the natural gas pipelines beneath Finch Ave. West.

When: Starting late October 2017, work will begin on Finch Ave. West at Signet Drive/Arrow Road. It is expected that the work will take approximately two months to complete. Some work may require rescheduling due to weather conditions and unforeseen circumstances.

Where: The work will take place within the intersection of Finch Ave. West at Signet Drive/Arrow Road but may also extend beyond the roadway. The east and westbound lanes of Finch Ave. West will be occupied by crews at different times so that the opposite side of the road can remain open throughout the project.

Transit Information

For the safety of transit riders, TTC bus stops in the affected area will be relocated. If required, additional signage directing pedestrians will also be installed.

Pedestrian and Traffic Details

During construction hours, lane reductions or short-term road closures may be required. Driveways will be accessible to residents at all times.

Please take care when travelling near construction areas. Pedestrian walkways will remain open. Please watch for additional signs directing pedestrians, as detours may be required.

Due to the current volume of traffic in this area, traffic delays are expected during construction. Signage will be posted in affected and surrounding areas to indicate road closures and traffic delays.

Work Hours

Work is typically carried out between 7:00 a.m. and 11:00 p.m., 7 days a week. Overnight work may be required to reduce the impact to local traffic.

For more information about this gas line relocation work, please contact Enbridge at 416-495-4809 or enbridgegasmedia@enbridge.com.
