

TRANSFORMING TRANSIT IN YOUR AREA

FINCH WEST LIGHT RAIL TRANSIT (LRT)

Information as of May 2018

Finch West Closed from 7 p.m. on May 18th to 11 p.m. on May 25th, 2018

The Finch West Light Rail Transit (LRT) is an 11km LRT running along Finch Ave. West between Keele Street and Humber College. The Finch West LRT will replace the 36A bus, increasing capacity and reliability of service. As part of this project, Enbridge Gas Distribution will be relocating natural gas pipelines along the Finch West LRT route.

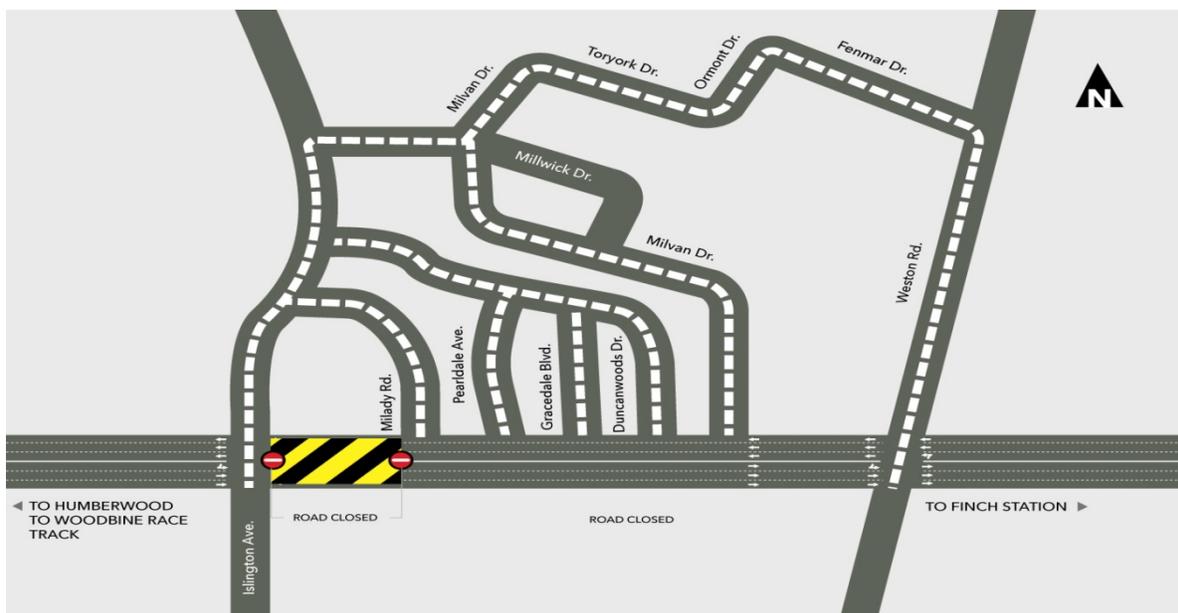

What: All lanes on Finch Ave. West from Islington Ave. to Milady Rd. will be closed in both directions (two eastbound and two westbound lanes).

Why: A very large excavation is required to access our natural gas pipelines in order to complete the phase of work that began in 2017.

When: From Friday, May 18th at 7 p.m. to Friday, May 25th at 11 p.m.

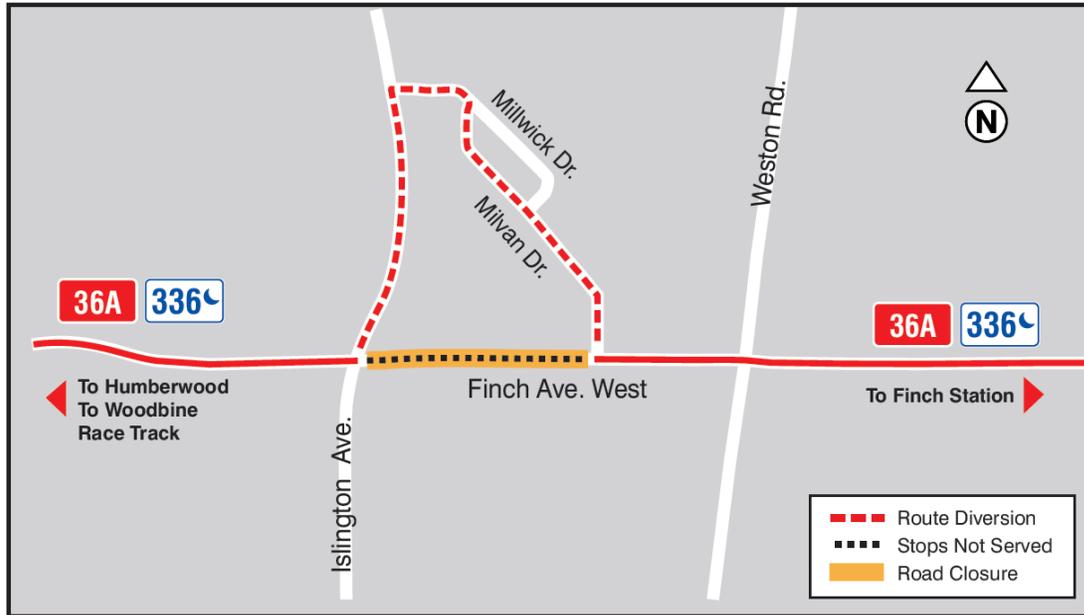

Where: During the closure:

- Eastbound and westbound traffic along Finch Ave. West will be rerouted using Milady Rd. and Islington Ave. Residents living in and around Milady Rd. will experience a significant increase in traffic.
- Access to the Gord & Irene Risk Community Centre from Finch Ave. West will be impacted, as the west driveway will be closed, but the east driveway will remain open. In addition, people can access the community centre from the Islington Ave. entrance, north of Finch.
- Both driveways from the Harmony Village townhouse complex at Finch Ave. West and Milady Rd. will remain open.

Transit Information

For the safety of transit riders, TTC bus stops in the affected area on Finch Ave. West between Milady Rd. and Islington Ave. will be relocated. Additional signage directing pedestrians will be installed. For TTC detour, please refer to the map below:

Pedestrian and Traffic Details

The west driveway of Gord & Irene Risk Community Centre will be closed. All other driveways will remain accessible to the public, including the entrance from Islington Ave. north of Finch.

Please take care when travelling near construction areas.

Please watch for additional signs directing pedestrians, as detours may be required.

Due to the current volume of traffic in this area, traffic delays are expected during the temporary road closure. Signage will be posted in affected and surrounding areas to indicate this road closure and traffic delays.

Work Hours

Most of the work will be carried out between 7:00 a.m. and 11:00 p.m., 7 days a week. Overnight work may be required.

Contact

For more information about this natural gas line relocation work, please contact Enbridge at 416-495-4809 or enbridgegasmmedia@enbridge.com.
