

# TRANSFORMING TRANSIT IN YOUR AREA

## FINCH WEST LIGHT RAIL TRANSIT (LRT)

Information as of May 2018

### Natural Gas Line Relocation for the Finch West Light Rail Transit (LRT)

The Finch West Light Rail Transit (LRT) is an 11km LRT running along Finch Ave. West between Keele St. and Humber College. The Finch West LRT will replace 35 peak period buses, increasing capacity and reliability of service along the route, while significantly reducing travel times for transit users on the corridor.

**What:** As part of the Finch West LRT project, Enbridge Gas Distribution will be relocating natural gas pipelines along the route. This portion of the work will begin on Finch Ave. West at Pelican Gate and York Gate Blvd. As a result, eastbound and westbound traffic may be impacted.

**When:** This work is expected to begin starting the week of May 28<sup>th</sup>, and is estimated to take approximately 18 weeks to complete. Some work may be rescheduled due to weather conditions and unforeseen circumstances.

**Why:** This work is required to accommodate the construction of the new Finch West LRT.

**Where:** The work will take place at the intersections of Pelican Gate and Finch Ave. West, and York Gate Blvd. and Finch Ave. West. Some work will also be taking place on Firgrove Cres and Elana Dr.

**Transit Information**

For the safety of transit riders, TTC bus stops in the affected area will be relocated. If required, additional signage directing pedestrians will also be installed.

**Pedestrian and Traffic Details**

During construction, lane reductions or short-term road closures may be required. Driveways will be accessible to residents at all times.

Please take care when travelling near construction areas. Pedestrian walkways will remain open. Please watch for additional signs directing pedestrians, as detours may be required.

Due to the current volume of traffic in this area, traffic delays are expected during construction. Signage will be posted in affected and surrounding areas to indicate road closures and traffic delays.

**Work Hours**

Most of the work will be carried out between 7:00 a.m. and 11:00 p.m., 7 days a week. Overnight work may be required to reduce the impact to local traffic.

**Contact**

For more information about this gas line relocation work, please contact Enbridge at 416-495-4809 or [enbridgegasmedia@enbridge.com](mailto:enbridgegasmedia@enbridge.com).
