

# TRANSFORMING TRANSIT IN YOUR AREA

## Streetsville GO Station Parking Expansion

November 2016

### THE PROJECT

Metrolinx, an agency of the Province of Ontario, is working to transform the way the region moves by building a seamless, convenient and integrated transit network across the Greater Toronto and Hamilton Area (GTHA). Over the next ten years, Metrolinx is transforming the existing GO rail system to deliver a whole new rapid transit experience to your community.

### THE LOCAL PROJECT

On November 21<sup>st</sup>, the second phase of the Streetsville GO parking expansion will commence. A new parking lot for 98 cars will be constructed on the north side of the rail corridor, off Princess Street. This will double the capacity of the parking north of the tracks. A one lane (eastbound) driveway and pedestrian access connecting the two parking lots and platform access will also be completed.

### WHAT TO EXPECT

Construction will consist of clearing and grading the site, followed by paving and installation of signage and lighting. Residents should expect some noise and vibration associated with the work.

The wooden fence spanning the site will be replaced with a pre-cast concrete fence, consistent with the east lot.

### TIMING

This project is planned to begin on November 21<sup>st</sup>, with completion scheduled for summer 2017.

Regular hours for construction will be **Monday to Friday from 8 a.m. to 5 p.m.**

### QUESTIONS?

For any questions or to be included on future communications, please do not hesitate to contact me at 416-202-4422 or [Ryah.Kazman@Metrolinx.com](mailto:Ryah.Kazman@Metrolinx.com)
