Whom it may concern;

The Mimico by the Lake BIA strongly urges Metrolinx to reconsider the addition of a Go Train station and transit hub at Park Lawn Rd in addition to current Mimico stop.

The recent condo building boom in Humber Bay Shores has not been matched with a corresponding investment in roads and transit and the resulting traffic jams are approaching crisis levels and we just don't have enough alternatives to get people out of their cars.

Through our political representatives, the Mimico By The Lake BIA is requesting that the decision to reject the Parklawn proposed Go Stop be re-evaluated.

Sincerely,

David Pritchard,
