

Nighttime Works

March to April 2022

What work is taking place?

Installation of noise barriers within the rail corridor between Lawrence Avenue and Highway 401. Noise barrier construction will include drilling of posts and installing noise barrier panels.

Background

The Barrie Double Track Enabling Works includes changes and upgrades to the existing rail corridor that will allow for the future installation of a second set of tracks.

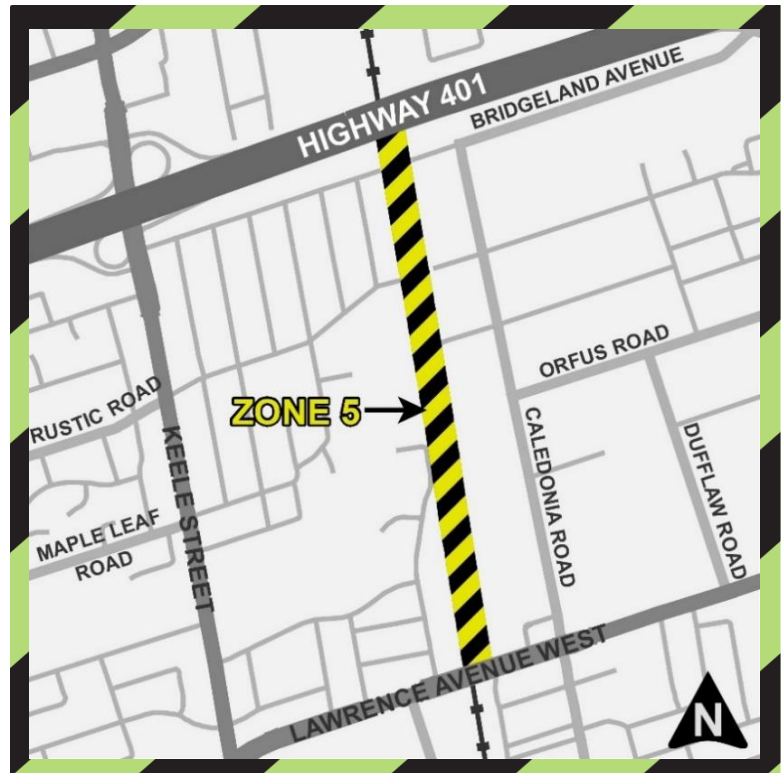

The Project Area is within the City of Toronto and is organized into seven zones. Zone 5 extends from Lawrence Avenue West to Highway 401.

Timing

- **Date:** March 7 to April 2022
- **Work Time:** Monday through Friday from 7:00 p.m. to 7:00 a.m. and Saturday from 12:00 a.m. to 7:00 a.m.

What to Expect

- The work will be conducted as quickly and efficiently as possible to minimize disturbances. There should be minimal impacts to traffic.
- All work will occur within the rail corridor with designated access routes for construction staff.
- All work will occur when there is no train service. Nighttime works may result in a nuisance to nearby residents consistent with small scale construction.
- Equipment lights and bright flood lights will be used during nighttime works. Lights will be pointed downwards to minimize impacts to residents.
- Some noise and vibration that is typical of construction activities. Residents and businesses near the work site can expect to hear noise caused by trucks, excavators, cranes and other construction equipment related to this work. Noise levels and vibration levels will be within Project requirements.
- Efforts will be made to minimize dust and minimize idling.

Questions

If you have any questions about the Project and construction works or would like to be included on future email communications from us, please do not hesitate to call us at 416-202-6911 or email us at TorontoWest@metrolinx.com.

**Please respect all safety and exclusion measures installed to protect you.
Please take care with any adjacent activities or when travelling near construction areas.**

Thank you for your patience as we work to transform the rail corridor in your area.
