

Increased Construction Activity and Truck Traffic at 640 Lansdowne Avenue (at Paton Road)

Beginning November 19, 2021

What work is taking place?

To facilitate construction of the elevated guideway, truck traffic and construction activity will start to increase at our contractor's yard at 640 Lansdowne (corner of Lansdowne Avenue and Paton Road). Truck traffic will noticeably increase due to frequent concrete girder deliveries into the yard via large tractor trailers and regular concrete girder transportation from the yard into the rail corridor via self-propelled modular transporters (SPMTs). Within the yard, crews will be post-tensioning the concrete girders using tensioning equipment, and a gantry crane will be used to offload the girders. Lastly, the launcher system that will be used to install the girders for the elevated guideway will also be stored in the yard until it can be set up in the rail corridor.

When

Beginning as early as November 19, 2021.

Up to seven days a week.

Where

At 640 Lansdowne Avenue, located at the corner of Lansdowne Avenue and Paton Road.

Hours

Approximately 7 a.m. to 7 p.m. daily.

Possible late night and/or overnight activity and traffic.

**Please note that dates and times are approximate. For regular construction updates, please sign up for our Toronto West weekly newsletter by visiting our website at www.metrolinx.com/davenport or follow us on Twitter @GOExpansion.*

What to expect

Residents and businesses in the immediate area can expect the following impacts:

- Increased construction activity, truck traffic, and noise.
- Daily girder deliveries and transportation in and out of the yard.
- Daily work in the yard.
