

North MSE Wall Grading and Drainage Installation between CP Diamond and Davenport Road - Late Night Work

November 1-5, 2021 (five nights)

What work is taking place?

Crews will be grading and installing drainage between the CP Diamond and Davenport Road as part of mechanically stabilized earth wall (i.e., MSE wall) construction.

The MSE wall is like a really big ramp made of reinforced soil designed to support the weight of the trains passing above. The wall will bring trains up to the height of the elevated guideway and back down to grade again.

When

Monday, November 1 to Friday, November 5 (five nights).

Where

Within the rail corridor between the CP Diamond and Davenport Road.

Hours

Approximately 9 p.m. to 12 a.m.

**Please note that dates and times are approximate, and work could be rescheduled. For regular construction updates, please sign up for our Toronto West weekly newsletter by visiting our website at www.metrolinx.com/davenport or follow us on Twitter @GOExpansion.*

What to expect

Local residents can expect construction activity, noise, mild vibration, and lights. Crews will be using an excavator, bulldozer, loader, and drum roller to carry out this work.

Why overnight?

This work must be carried out for a few hours at night as it conflicts with critical daytime activities.
