

Power Cable Relocation between Dupont Street & the CP Diamond - Overnight Work

July 29 - 30, 2021

What work is taking place?

We need to relocate the power cable at Signal 45, between Dupont Street and the CP Diamond. This work involves using a hydrovac to expose the cables in order to remove them, protect them, and relocate them.

When

Thursday, July 29 and Friday, July 30 (two nights).

Where

Between Dupont Street and the CP Diamond.

Hours

Approximately 6 p.m. to 6 a.m.

**Please note that dates and times are approximate, and work could be rescheduled. For regular construction updates, please sign up for our Toronto West weekly newsletter by visiting our website at www.metrolinx.com/davenport or follow us on Twitter @GOExpansion.*

Why overnight work?

This work needs to be done when there is no train service because the hydrovac will be occupying the tracks in order to access the work location.

What to expect

Nearby residents can expect construction activity, noise (in particular from the hydrovac), and lights.
