

# Updated Notice for Tree Removal

Early May 2020 to Early June 2020

## What work is taking place?

As part of the construction of the Davenport Diamond Grade Separation project, tree removal is required within Metrolinx's right-of-way. Vegetation removal is necessary to facilitate Guideway construction, due to proximity of the trees and other plants to the construction site.

## WHEN

The tree removal work will begin in early May and run until early June. Please note that these dates are tentative, and work could be rescheduled due to weather conditions or unforeseen circumstances.

## WHERE

The removal of trees will be mainly within the rail corridor.

## WORKING HOURS

This work is scheduled to take place in the corridor from 7 a.m. to 7 p.m. on weekdays and a few weekends.

You can expect moderate noise from equipment and crew trucks. If any lights are required to complete this work safely, they will be pointed away from households and windows. We apologize in advance for any inconvenience, and we'll make every effort to minimize disruption as much as possible.
