

Archaeological investigations along Eglinton Ave West between Martin Grove Road and Weston Road

July 2021

The Eglinton Crosstown West Extension (ECWE) is one of four new subway projects that will transform transit in our region; getting hundreds of thousands of people where they need to be, better, faster, and easier than today.

What work is happening here?

In support of the Eglinton Crosstown West Extension project environmental studies and existing conditions documentation, Metrolinx is undertaking an archaeological investigation along Eglinton Avenue West between Martin Grove Road and Weston Road. The purpose of these investigations is to maintain compliance with the Ontario Heritage Act in determining archaeological potential.

HOURS OF WORK

- Work is scheduled to start during the week of July 26, 2021, and will take 2-3 days to complete, subject to weather conditions.
- Work can occur between the hours of 9:00 a.m. and 5:00 p.m., Monday to Friday.
- Work may be rescheduled due to weather conditions or unforeseen circumstances.

WHAT TO EXPECT

- Machinery is not required on-site for the work. Archaeological investigations require test pit surveys (shovel-testing).
- Test pit surveys of 5m intervals will be carried out in areas of identified archaeological potential. Recovery of any resources will be catalogued and documented.
- Each site will be restored to original conditions prior to test pit survey on the same day of the investigation before departure from site.
- There will be no noise, pedestrian or traffic impacts associated with this work.
- Community members will still be able to access park amenities as this fieldwork takes place.
- No tree or vegetation removals are required for the work.
- Publicly accessible facilities (e.g. sidewalks, public paths, parks, roadways) will remain open during the investigations.
