

Subsurface Utilities Engineering work at Hwy 427

near Eglinton Ave West and The East Mall

March 14 - March 25, 2022

The Eglinton Crosstown West Extension is one of four new subway projects that will transform transit in our region; getting hundreds of thousands of people where they need to be, better, faster and easier than today.

What work is happening here?

In support of the Eglinton Crosstown West Extension (ECWE), project studies and existing conditions documentation, Metrolinx is undertaking Subsurface Utility Engineering (SUE) work. This work involves investigating, documenting, and mapping existing underground utility networks such as pipelines and cable lines, and retrieving information on existing conditions to determine when and how to relocate subsurface utilities. This work reduces the likelihood of existing utilities being damaged by new construction projects. For the ECWE project, this work will take place in the weeks of March 14 and 21, 2022 at Highway 427 near Eglinton Avenue West and The East Mall in Etobicoke.

HOURS OF WORK

- Staff will be onsite in the weeks of March 14 and 21, 2022 from Monday to Friday 8am to 6pm.
- Work may be rescheduled due to weather conditions or unforeseen circumstances.

WHAT TO EXPECT

- Noise can be expected during daytime hours in the weeks of March 14 and 21 due to excavation.
- Hydrovac truck and work vehicles would remain on site during the work. Work vehicles and truck will park in the boulevard.
- There will be no major property or pedestrian impacts associated with this work.
- No tree or vegetation removals are required for the work.

TRAFFIC AND PEDESTRIAN IMPACTS

- Starting March 16, there will be Highway 427 Northbound off-ramp shoulder occupancy for 30 mins during site work. This would allow work vehicles and trucks to get onto the boulevard and off after field work completion.
