

Subsurface Utilities Engineering work at Scarlett Road and Eglinton Avenue West

April 5 – April 15, 2022

The Eglinton Crosstown West Extension is one of four new subway projects that will transform transit in our region; getting hundreds of thousands of people where they need to be, better, faster and easier than today.

What work is happening here?

In support of the Eglinton Crosstown West Extension (ECWE) project studies and existing conditions documentation, Metrolinx is undertaking Subsurface Utility Engineering (SUE) work. This work involves investigating, documenting, and mapping existing underground utility networks such as pipelines and cable lines, and retrieving information on existing conditions to determine when and how to relocate subsurface utilities. This work reduces the likelihood of existing utilities being damaged by new construction projects. For the ECWE project, this work will take place in the weeks of April 4 and April 11, 2022 at the following locations: Emmett Street at Eglinton Avenue West, Eglinton Avenue West between Emmett Street and Scarlett Street, and Scarlett Street between Richview Road and Eglinton Avenue West.
