

Traffic Changes from Islington Ave. to Signet Dr./Arrow Rd. for Utility Work

Late-January to late-July, 2021

Note: For details on traffic configuration from Milvan Dr. to Signet Dr. please go to the end of the notice.

What?

As part of preparatory works for the Finch West Light Rail Transit (LRT) line, crews have been relocating utility east of Highway 400 on Finch Avenue West. In mid-January, similar work will begin, from east of Islington Ave. to west of Signet Dr/Oakdale Rd. Crews and equipment will be working in multiple locations. The activities primarily will occur Monday to Friday and involve overnight work. There may be some work on weekend.

Traffic patterns will change along Finch Ave. W. as temporary changes will be made to lanes, crossings, sidewalks, and boulevards to allow crew to safely complete work. Motorists and pedestrians should be aware of and adhere to traffic/pedestrian signage and flag persons.

Utility relocation is one of the key steps of the project and the most complex as it requires a major design and coordination effort between Metrolinx, our contractor, the City of Toronto and/or affected utility companies. Utility work is taking place in stages and will continue until mid-2022. Please see the map above for traffic, transit, and pedestrian changes to expect in the area over the next six months.

Additional preparation activities to expect include tree/vegetation removal, fence removals, as well as geotechnical investigations to collect soil, water and rock condition data. Where access to private property is required, our contractor and their subcontractors will seek permission, in advance.

WORKS BETWEEN ISLINGTON AVE. AND SIGNET DR./OAKDALE RD.:

- Crews will relocate utilities to make room for the Finch West LRT between east of Islington Ave. and west of Signet Dr.
- Dry utility works include relocation of telecommunication infrastructure (i.e. Bell, Rogers, etc.), hydro poles, and underground duct banks and power cables.
- Wet utility works include relocation of watermains, and sanitary and storm sewers.
- In general, most utility work will be on the north side of Finch Ave. W. but some work will also occur on the south side. (see above).
- Tree/vegetation removal, fence removals, geotechnical investigations to collect soil, water and rock condition data.

WORK HOURS:

- Monday to Friday, **day and night**.
- Work may be rescheduled due to weather conditions or unforeseen circumstances.

WHAT TO EXPECT

- Due to the nature of the work, at times there will be noise and vibration.

Virtual Hours of Operation:
Monday- Friday, 9:00 a.m. to 5:00 p.m.
In person- by appointment.
Tel: 416-202-6500
