

# Guideway Work Begins Between Sentinel Rd. and Norfinch Dr.

Mid-February - End of May 2021

## What?

As part of the Finch West Light Rail Transit (LRT) Project, work continues across the project corridor. As of mid-February 2021, alternating lane restrictions or partial road closures will be in place between Norfinch Dr./Oakdale Rd. and Sentinel Rd. for approximately four months as crews build sections of the LRT guideway (a test track) to allow for light rail vehicles to be tested later this year. Finch Avenue West will remain open in both directions but Jane Street, Driftwood Avenue, York Gate Boulevard., and Tobermory Drive will experience lane restrictions or closures during track installation at those intersections.

Work includes installation of pole foundations, trackwork and overhead cabling. Additional work is required on York Gate Blvd to install duct banks and manholes. The test track also will be installed between Norfinch Dr./Oakdale Rd. and Sentinel Rd., once permits are approved.

Portable message signs will be posted along Finch Ave. in advance to keep drivers and pedestrians informed of changes to expect.
