

Guideway Construction on Hurontario Street from Derry Road to Topflight Drive, and on Topflight Drive and Edwards Blvd

Beginning August 2022

What work is taking place?

Crews will begin work to construct the guideway in the centre lanes of Hurontario Street between Derry Rd and Topflight Dr, as well along Topflight Drive and Edwards Blvd (north of Topflight). **The work is scheduled to begin August 7, 2022.** Construction hours will be scheduled to take place **between 7 am to 7 pm**, but the work zones will remain in place. Every effort will be made to maintain two lanes of traffic in each direction on Hurontario. Please follow the signs installed to assist with navigating around construction.

This work will begin in the roadway between the intersections before progressing to work through each intersection. Once work begins in the intersections, construction will occur 24 hours a day, 7 days a week, and there will be closures and detours for motorists and transit. Consecutive intersections will not be under construction at the same time. Any road closures and detours will be communicated in advance and notice will be sent to the areas affected.

Once this work begins, there will be permanent traffic configuration changes of the roadways. Left turns and U-turns are permitted during the advanced left signal at signalized intersections. Traffic signals will be adjusted to keep motorists moving.

Temporary bus platforms will be removed, and transit users can return to using existing transit stops and shelters. However, stops may be temporarily relocated when intersection works begin. Please check for any changes to bus routes at MiWay.ca, Brampton.ca and GOtransit.ca.

Please note, work may be rescheduled due to weather or unforeseen circumstances. If you require the most up-to-date information, please reach out to peel@metrolinx.com and our team will provide you with e-updates of this work.

TIMING

- Work will be scheduled begin August 7, 2022.
- Work will occur between 7 am to 7pm. Nighttime works will occur to minimize the length of the intersection closures.
- Work could be rescheduled and delayed due to weather conditions or unforeseen circumstances.

TRAFFIC DETAILS

- Temporary lane reductions will be required on Hurontario Street between Derry Rd to Topflight Dr.
- Lane reductions will be required along Topflight Drive including a reduction to a single lane controlled by a temporary traffic signal.
- Traffic delays are expected.
- Watch for slow moving vehicles entering and exiting work areas.
- Remember to reduce your speed when approaching lane reductions.

WHAT TO EXPECT?

- Every effort will be made to minimize disruptions.
- Residents and businesses near the work site can expect to hear noise and vibration caused by trucks, excavators, loaders, tri-axles, backhoes, and other construction equipment related to this work.

TRANSIT SERVICE IMPACTS

- Visit MiWay.ca, Brampton.ca and GOtransit.ca for updates on your bus route.
- Due to lane reductions along Hurontario Street, delays can be expected on Brampton Transit routes 2,6, 7, Züm route 502 and MiWay routes 17, 18, 42/42A, 53, and 103.
- Watch for additional signs directing passengers at bus stops as boarding areas may be relocated.

PEDESTRIAN DETAILS

- Please take care when travelling near construction areas and only cross the street at designated crosswalks.
- There will be no impact on sidewalks during this construction.

PROPERTY DETAILS

- Crews will not require property access for guideway construction.
