

Phase 2 Environmental Site Assessment Drilling Activities Required: 139-153 Weston Road Toronto

July 16, 2021

What is Happening?

Metrolinx will be completing a Phase 2 Environmental Site Assessment (ESA) and the work location will be on the properties located at 139-153 Weston Road, Toronto. During the Phase 2 ESA, groundwater monitoring wells will be installed by Licensed Drillers and a drill rig will be in operation. Metrolinx has scheduled to complete the monitoring well installations on Thursday July 16, 2021 (all day)

HOURS OF WORK

- Work will be for one day starting June 24th and drilling will be intermittent **throughout the day**. There will be no overnight work.

WHAT TO EXPECT

- You may hear some construction noise during this time and based on the proximity to the drilling locations. There is a very small chance you may experience slight vibrations.

IMPACTS

- Drilling work may be rescheduled due to weather and site conditions, as well as varying work crews and equipment needs. Long term disruptions are not expected.

The Community Engagement team does its best to ensure that communities are informed of upcoming work impacts in advance. Please subscribe to our Toronto West regional e-newsletter for up to date information by clicking [here](#).
