

# Eglinton GO Station Tie Replacement

November 2021

## What is Happening?

Work is continuing with the replacement of all rail, ballast and ties resulting in improved track reliability.

Updates will be provided in the Toronto East e-newsletter. To subscribe, go to [metrolinx.com/subscribe](https://metrolinx.com/subscribe).

## What to Expect?

Maintenance work is necessary to ensure that our services continue to run safely and efficiently. This tie replacement project includes:

- The track through Eglinton GO Station has been identified as requiring tie, ballast and rail replacements along the entire length of the station platform
- This part of the work includes removal of 394 track meters of old track and replace it with new concrete track pre-built panels
- Work will take place in the corridor near to Eglinton GO Station from Porchester Drive to McCowan District Park
- The customer parking lot on the north side of Eglinton Avenue will continue to be closed and this area will serve as a support area for this work
- Construction noise can be expected during this work
  - Excavators, large rail equipment, large crew and materials will be moving through the site
  - Noise monitoring equipment will be used to ensure the level of noise is within guidelines
