

Scarborough Golf Club Road Grade Separation Project Update

Information as of March 16, 2022

PROJECT OVERVIEW

The Lakeshore East GO corridor is Metrolinx's second busiest rail line. We're transforming this corridor to bring more trips along the line for those traveling from and to Toronto. Frequent GO rail service will offer more service with faster trains and seamless connections to a regional rapid transit network.

Across this corridor, crews are conducting preparatory work to widen the corridor and build infrastructure to allow for future fourth track and electrification work.

UPDATE

The Scarborough Golf Club Road Grade Separation has been de-scoped and indefinitely deferred.

NEXT STEPS

Every public level crossing across the Metrolinx network has vehicular gates with flashing lights on either side of the approaches. These measures provide drivers an indication of when the crossing is active and are lowered in advance of the train's approach. Once the train has safely cleared the crossing, the gate moves out of the way.

In addition to the existing safety features at the current level crossing, plans are underway to implement enhanced measures such as installation of pedestrian maze gates, trespass mats and improving visibility by painting yellow hatching on the crossing. We will continue to update the community with our progress and project plans in the area.

Examples of safety mitigations:

Yellow hatching on both sides

LED lighting at level crossing

GO EXPANSION CORRIDOR WORK

Metrolinx will continue to invest in the Lakeshore East rail corridor. Future work includes track upgrades and the installation of electrification infrastructure to allow for the future operation of quieter, cost effective and environmentally friendly electric trains.

Metrolinx's GO Expansion program will transform transportation along the Lakeshore East corridor. Faster, more frequent, quieter service is coming to all stations on the Lakeshore line.

THANK YOU

We thank you for representing your community and sharing important feedback and highlighting your concerns. We value your input and will continue to inform the public as we work in your community in the coming years.

If you have questions, please reach out to us at TorontoEast@metrolinx.com and we can answer your question or arrange a discussion.
