

Project Update: Remaining Construction

Present to Summer 2023

What Work Is Taking Place?

Metrolinx contractors have completed the installation of two retaining walls along the south side of the rail corridor within the Metrolinx Right-of-Way, between Norwood Road and Victoria Park Avenue. Now that the installation has been completed, backfilling activities have begun behind the new retaining walls and this work is expected to last throughout October 2022.

The electrical conduits, cabling installation and final grading in each area will begin once retaining wall backfilling activities have been completed. These will be the final construction activities in each area and are planned for completion before the end of December 2022, however the topsoil placement and hydroseeding components are weather sensitive and will resume in summer 2023.

What to Expect?

Residents will see construction equipment within the rail corridor, including an excavator, dozer, and dump trucks. Residents should expect some noise, vibration, dust and site lighting. Some noise, dust, and vibration are expected with this work, varying based on the type of work. Crews will route haulage and dump trucks on main roads where possible and minimize reversing operations to mitigate noise and vibration impacts for overnight work.

HOURS OF WORK

- Work will occur 24 hours a day, five (5) days per week (Monday to Friday).
- Work may be rescheduled due to unforeseen circumstances.

TRAFFIC & PEDESTRIAN DETAILS

- Retaining Wall 9 will be accessed via Norwood Road.
- There will be no staging on Norwood Road.
- Retaining Wall 8 will be accessed via the Loblaws parking lot at 50 Musgrave Street.
- Increased construction vehicles and equipment can be expected in the work area.
- No pedestrian or TTC impacts are anticipated with this work.

OTHER INFORMATION

- For the latest information on what's happening in your area please e-mail TorontoEast@Metrolinx.com and ask to subscribe to our weekly e-newsletter.
- Please exercise caution around active construction sites.

PROJECT INFORMATION

- We're making improvements today to bring you even more service in the future. Preparatory early works are underway on the Lakeshore East Rail Corridor Expansion project in Toronto. This project covers the area between Pape Avenue and Kennedy Road. Completing this work will enable the future addition of a fourth track and electrification infrastructure on the Lakeshore East line.
- Electrification is a key part of building a quieter, faster, more efficient network across the region. The new fourth track will improve journey times for all transit trips on the Lakeshore East Corridor, improve reliability and deliver more service within the City of Toronto. For more information on this project and to see all construction notices please visit metrolinx.com/lakeshoreeastrailcorridor.

Thank you for your patience as we work to transform the rail corridor in your area.
