

Danforth Bridge Stage 1: Pier Installation

As early as November 1, 2021 to Late December 2021

What work is taking place?

Crews will be mobilizing to Danforth Avenue between Warden Avenue and Birchmount Road, as early as November 1, 2021. Once on site, crews will be closing one lane of traffic in each direction, installing a temporary shoring system, and extending the existing center pier. This work will be ongoing for approximately two months.

What to Expect

Road users can expect to see lanes closed and the construction zone around the pier delineated between Warden Avenue and Birchmount Road. Traffic may move more slowly through the work zone. Residents can expect to see construction vehicles and equipment within the rail corridor, on Danforth Avenue, and in the surrounding areas, including pile driving equipment, dozer, crane, excavator, concrete trucks, and dump trucks. Due to the nature of this work, noise, vibration dust and site lighting can be anticipated.

HOURS OF WORK

- Work will occur during the day, from 7:00 am to 7:00 pm, five (5) days per week (Monday to Friday).
- Work may be rescheduled due to unforeseen circumstances.

TRAFFIC & PEDESTRIAN DETAILS

- Traffic will be reduced to single lane conditions in both directions.
- Pedestrians will not be impacted at this time.
- Advanced notice of traffic impacts will also be provided through our weekly e-newsletter.
- Increased construction vehicles and equipment can be expected in the work area.

OTHER INFORMATION

- For the latest information on what's happening in your area please e-mail TorontoEast@Metrolinx.com and ask to subscribe to our weekly e-newsletter.
- Please exercise caution around active construction sites.
- Bridge construction will be completed in three stages. Residents will receive a notice for each stage of work.

PROJECT INFORMATION

- We're making improvements today to bring you even more service in the future. Preparatory early works are underway on the Lakeshore East Rail Corridor Expansion project in Toronto. This project covers the area between Pape Avenue and Kennedy Road. Completing this work will enable the future addition of a fourth track and electrification infrastructure on the Lakeshore East line.
- Electrification is a key part of building a quieter, faster, more efficient network across the region. The new fourth track will improve journey times for all transit trips on the Lakeshore East Corridor, improve reliability and deliver more service within the City of Toronto. For more information on this project and to see all construction notices please visit metrolinx.com/lakeshoreeastrailcorridor.

Thank you for your patience as we work to transform the rail corridor in your area.
