

Scarborough GO Station Night Work

August 5, 2020

Today, if you live in Oshawa, Toronto, or anywhere in between, you enjoy two-way, all-day service seven days a week. We're going to take it up a notch. With GO expansion on the Lakeshore East line, we're bringing 15-minute two-way service between Union Station and Oshawa. Faster, more frequent travel is coming your way. Forget the car - welcome to your future.

What Work is Taking Place?

We are making improvements at Scarborough GO Station by enhancing accessibility, safety and communication features. This includes installation of new yellow tiles at the edge of the platform, new digital signs, and a new secure bike room.

What to Expect?

For August, this work will be completed at night, 9:00 p.m. - 6:00 a.m. This work must be completed at night when there are fewer trains operating in the rail corridor. Those living in close proximity to the station can expect typical construction impacts such as construction lighting, noise and vibration. For customers, there will be some temporary changes to how customers get on the GO. For more information, visit: <https://www.gotransit.com/en/the-future-go/improvements/scarborough-go>.

Questions?

If you have any questions or concerns or would like to be included on future email communications from us, please do not hesitate to email us at TorontoEast@metrolinx.com.

Thank you for your patience as we work to transform the rail corridor in your area.
