

Geotechnical Instrumentation and Monitoring Program in Corktown area

Starting June 2022

What is happening?
 To advance design concepts and other structural plans for the Ontario Line, Metrolinx will be establishing a Horizontal Control Network that will be utilized for the Geotechnical Instrumentation and Monitoring Program.

Timing

- **Scheduled start:** June 2022
- **Scheduled completion:** September 2022
- **Days:** Monday to Friday
- **Hours:** 8:00am- 5:00pm

What to expect

- A three-person crew will be visiting locations along Front, King, Paramount and Berkely street to establish a horizontal control network (a series of survey points) that will be utilized for the Geotechnical Instrumentation & Monitoring Program.
- Geotechnical monitoring instruments are installed in the vicinity of the station construction to monitor the ground conditions once construction is underway.
- Equipment will not be left on-site outside of work hours.
- While sidewalks will remain open there will be temporary impacts and diversions for pedestrians.
- Work may be delayed or rescheduled due to inclement weather or unforeseen circumstances.

The Ontario Line

- 15.6 kilometres of transit service
- Making it faster and easier for hundreds of thousands of people to get where they need to be

- Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
