

Early Works for Southern Section of Moss Park

Starting as early as June 29th, 2022

What is happening?
 Metrolinx will be conducting various pre-construction activities in the southern section of Moss Park that will prepare the site for the future construction of the station. Please see below for more details.

Timing

- **Scheduled start:** June 29th, 2022
- **Scheduled completion:** July 8th, 2022
- **Days:** M-F
- **Hours:** 8:00am-6:00pm.

What to expect

- Crews will be conducting ongoing pre-construction activities in the southern portion of Moss Park including but not limited to:
 - Phase II Environmental Site Assessment (ESA)
- **Environmental Site Assessment:** A Phase II ESA must be completed to assess soil and groundwater to provide baseline information prior to construction. Work will consist of drilling boreholes and installing and sampling of monitoring wells in the locations identified above. The drilling will require a track mounted drilling rig on site as well as a support truck for well supplies. The work area around the drill rig will be sectioned off with pylons and caution tape. Once drilling is complete and the well is installed, pylons and caution tape will be removed.
- Storage drums will be on site for temporary soil storage. They will be safely secured with fencing and clearly labelled. Once the work is complete, the soil will be replaced, and the drums will be removed.
- Please take care and watch for signs directing pedestrians when walking near construction areas.
- Residents and businesses near the work site may hear noise caused by trucks and other construction equipment related to this work.
- Work equipment may be left on-site until work is completed.
- Work may be delayed or rescheduled due to inclement weather or unforeseen circumstances

The Ontario Line

- 15.6 kilometres of transit service
- Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
