

Geotechnical Instrumentation Monitoring Program in Moss Park

Starting as early as November 21, 2022

What is happening?
 Crews will be installing Geotechnical Instrumentation monitoring points to facilitate the future construction of Moss Park Station

Timing

- **Scheduled Start**
Date: Monday
 November 21, 2022
- **Scheduled finish:**
 Thursday November
 24, 2022
- **Work will take place:**
 Monday to Friday
 between the hours of
 8 am- 4 pm

What to expect

- Geotechnical Instrumentation Points are installed in the vicinity of the station to monitor ground conditions once construction is underway.
- Each Geotechnical Instrumentation Point within the work zone will be completed one at a time (in sequential order) and each monitoring area will be temporary fenced off for safety. It will take approximately one hour to install each Geotechnical Instrumentation Point.
- The work involves the use of a Track- mounted drill rig.
- The park will remain open and accessible to the public.
- Equipment will not be left on-site outside of work hours.
- There will be no impacts to the sidewalk or pedestrians.
- Work may be delayed or rescheduled due to inclement weather or unforeseen circumstances.
