

Overnight Installation of Geotechnical Instrumentation Monitoring at Queen & Spadina

Starting as early as October 12, 2022

What is happening?

In order to connect more people and places throughout Toronto, work is underway to deliver the new Ontario Line from the Science Centre to Exhibition Station.

Work crews will be installing geotechnical instrumentation monitoring points at Queen and Spadina. These will monitor ground movement when the construction and excavation begins for Queen/Spadina Station.

Timing

- **Scheduled start:** October 12th, 2022
- **Scheduled completion:** November 30th, 2022
- **Days:** Weekdays and weekday overnights
- **Hours:** 9 p.m. - 5 a.m.
- **Bulwer St / Graffiti Alley:** 7 a.m. - 7 p.m.

What to expect

- Work crews will be installing geotechnical instrumentation monitoring points on Queen St W, Spadina Ave, Graffiti Alley, Richmond St and Bulwer St to monitor ground movement during construction.
- Asphalt will be cored using coring equipment/truck, then the hole will be daylighted using a hydrovac truck. This process should take a few hours at each location.
- Equipment will not be left on site outside work hours.
- The lane closest to the work will be temporarily closed. TTC service will not be affected during work hours. A PDO officer will be on-site to help redirect traffic.
- Sidewalks will be temporarily closed during work hours. Pedestrians will be redirected to other sidewalks during this time.
- Residents and businesses near the sites may hear noise.

The Ontario Line

15.6 kilometres of transit service

Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
