

Investigative hydrovac work on King Street West and Bathurst Street

Starting as early as January 10, 2022

What is happening?

To advance design concepts and other structural plans for the Ontario Line, Metrolinx will be using a vacuum truck to gather information and evaluate underground conditions. Using this information, Metrolinx will determine construction details for the project.

Timing

- **Scheduled start:** January 10, 2022
- **Duration:** Two days
- **Days:** Monday and Tuesday
- **Hours:** 9 a.m. to 3 p.m.

What to expect

- On Monday, January 10, the existing TTC bus/streetcar stop on the north side of King Street West, east of Bathurst Street, will be temporarily shifted east. The stop will return to its regular location on Tuesday, January 11.
- Residents and businesses near the work site can expect to hear noise caused by trucks and other equipment related to this work. Every effort will be made to minimize disruptions.
- During work hours, some temporary lane reductions will be required, and street parking will be unavailable near the work site. A paid duty police officer will be on-site to assist with traffic control.
- Crews will apply paint markings on the ground within the public right of way to note physical locations of underground utilities.
- Please take care and watch for signs directing pedestrians when walking near construction areas. Watch for additional signs directing pedestrians as detours may be required.
- Work may be delayed or rescheduled due to weather conditions or unforeseen circumstances.

The Ontario Line

 15.6 kilometres of transit service

 Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
