

# Update Notice: Early Works for Southern Section of Moss Park

Starting as early as October 15th, 2021

**What is happening?**  
 Metrolinx will be conducting various pre-construction activities including Tree Surveys, Archeological Assessments and Sub Utility Engineering, in the Southern section of Moss Park.

## Timing

- **Scheduled start:** October 15th, 2021
- **Scheduled completion:** Dec 17th, 2021
- **Days:** Monday to Friday.
- **Hours:** Between 8:00am and 5:00pm.

## What to expect

- **To ensure public safety current residents of the identified space in the map will need to move their belongings from the immediate area.**
- Crews will be conducting ongoing work in the southern portion of Moss Park including but not limited to:
  - Tree Surveys
  - Archeological Assessments
- **Tree Surveys** will be conducted to assess the health and size of the trees. This work will take approximately one day to complete.
- **Archeological Assessments:** The work will use a test pit survey method at a five-metre interval. Each test pit is:
  - To be dug by hand using a shovel.
  - 30 centimeters in diameter.
  - Excavated five centimeters into subsoil.
  - Soil screened through six millimeter hardware mesh.
  - Once complete, test pits will be backfilled, and sod replaced.

## The Ontario Line

 15.6 kilometres of transit service

 Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.

- The first phase of work is expected to take up to **2 weeks** to complete.
- **Sub-utility engineering (SUE) investigations and documentation:** An SUE investigation will be completed to support construction and development planning activities. The SUE team will be accessing the site to locate subsurface utilities and mark with paint and flagging on the ground surface.
- Please take care and watch for signs directing pedestrians when walking near construction areas.
- For safety temporary fencing will be installed around the work area in question.
- Residents and businesses near the work site may hear noise caused by trucks and other construction equipment related to this work.
- Work equipment may be left on-site until work is completed.
- Work may be delayed or rescheduled due to inclement weather or unforeseen circumstances.
