

# Surveying on Graffiti Alley and Spadina Avenue

Starting as early as October 8, 2021

## What is happening?

MetroInx will be surveying areas along the Ontario Line to identify utility locations, take measurements and evaluate underground conditions. Using this information, MetroInx can begin to determine the construction approach for this project.

## Timing

- **Scheduled start:** October 8, 2021
- **Duration:** Up to two weeks
- **Days:** Monday to Friday
- **Hours:** 8 a.m. to 4 p.m.

## What to expect

- A small crew will use handheld equipment to locate buried utilities in the public right of way. This work includes painting out the location of buried utilities. **No paint markings will be made on or over any existing artwork/murals in this area.**
- Work will consist of standard survey equipment. Equipment is non-intrusive and is used to measure distances and angles of above-ground features and to provide real-world coordinates in order for information to be drafted on a plan of survey. Equipment is usually handheld or mounted on a tripod over a control point. No equipment is left overnight.
- No noise or disturbance is expected from this work.
- The sidewalk will remain open during this work and no pedestrian or road impacts are anticipated.
- Please take care when walking near construction areas. Watch for additional signs directing pedestrians, as detours will be required.
- Every effort will be made to minimize disruptions and expedite work.
- Work may be delayed or reschedule due to inclement weather or unforeseen circumstances.

## The Ontario Line

15.6 kilometres of transit service

Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
