

Utility survey along Lewis Street between Eastern Avenue and Queen Street East

Starting as early as January 25, 2022

Timing

Duration:
Up to four weeks
Days:
Monday to Friday
Work Hours
7 a.m. – 5 p.m.

Locations

Lewis Street between Eastern Avenue and Queen Street East

What to expect

- A two or three-person crew will use monitoring and measuring equipment to locate utilities in the field and apply paint markings on the ground to note physical location of underground utilities. A second crew uses surveying equipment to take measurements of the utility locations.
- Utilities are located within the public right of way. The limits of the road or sidewalk do not always match up with the limits of the public right of way. At times, utility location markings will be visible on sidewalks, driveways and front lawns.
- Crews will avoid entering private property to the extent possible and will work from municipal plans. Access to properties will be maintained at all times through at least one driveway.
- Every effort will be made to minimize disruptions and expedite work.
- Please take care when walking near construction areas. Watch for additional signs directing pedestrians, as detours may be required.
- Work may be delayed or reschedule due to inclement weather or unforeseen circumstances.

The Ontario Line

15.6 kilometres of transit service

Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
