

SURVEYING WORK BETWEEN EASTERN AVE. AND PAPE AVE.

Starting as early as April 18, 2022

Timing

- Duration:**
Up to 4 weeks
- Days:**
Monday to Friday
- Work Hours:**
7am to 5pm

What to expect

- A one or two-person crew will use monitoring and measuring equipment to locate utilities in the field and apply paint markings on the ground to note physical location of underground utilities. A second crew uses surveying equipment to take measurements of the utility locations.
- Utilities are located within the public right of way. The limits of the road or sidewalk do not always match up with the limits of the public right of way. At times, utility location markings will be visible on sidewalks, driveways, and front lawns.
- Crews will avoid entering private property to the extent possible and will work from municipal plans. Access to properties will be maintained at all times through at least one driveway.
- Every effort will be made to minimize disruptions and expedite work.
- Please take care when walking near construction areas. Watch for additional signs directing pedestrians, as detours may be required.
- Work may be delayed or reschedule due to inclement weather or unforeseen circumstances.

Locations

- Eastern Ave
- Saulters St
- Queen St E
- Dundas St E
- and laneway N
- Thackeray St
- Gerrard St E and Laneway S
- Pape Ave
