

# Utility survey between Eastern Avenue and Pape Avenue

Starting as early as September 22, 2021

## What is happening?

Metrolinx will be surveying areas along the Ontario Line to identify utility locations, take measurements and evaluate underground conditions. Using this information, Metrolinx can begin to determine the construction approach for this project.

## Timing

**Duration:**  
Up to four weeks  
**Days:**  
Monday to Friday  
**Work Hours**  
7 a.m. – 5 p.m.

## Locations

Dibble St., Saulter St.,  
Strange St., Queen St. E.,  
De Grassi St., Dundas St.  
E.,  
Tiverton Ave., Logan  
Ave.,  
Queen St. E., Pape Ave.,  
Langley Ave., First Ave.

## What to expect

- A one or two-person crew will use monitoring and measuring equipment to locate utilities in the field and apply paint markings on the ground to note physical location of underground utilities. A second crew uses surveying equipment to take measurements of the utility locations.
- Utilities are located within the public right of way. The limits of the road or sidewalk do not always match up with the limits of the public right of way.
- Crews will avoid entering private property to the extent possible and will work from municipal plans. Access to properties will be maintained at all times through at least one driveway.
- Every effort will be made to minimize disruptions and expedite work.
- Work may be delayed or reschedule due to inclement weather or unforeseen circumstances.

## The Ontario Line

15.6 kilometres of transit service

Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
