

# Topographic surveying on Albert Street between Bay Street and James Street

Starting as early as August 9, 2021

## What is happening?

MetroInx will be visiting sites to take photos and measurements, and to make observations of the surrounding terrain. Using this information, MetroInx can begin to determine the construction approach for this project.

## Timing

- **Scheduled start:** August 9, 2021
- **Surveying Duration:** 2 weeks
- **Days:** Monday to Friday
- **Hours:** 8 a.m. to 5 p.m.

## What to expect

- A two-person crew will make observations and take notes, using hand-held equipment to take measurements and photos of the terrain.
- Work will consist of standard survey equipment. Equipment is non-intrusive and is used to measure distances and angles of above-ground features and to provide real-world coordinates in order for information to be drafted on a plan of survey. Equipment is usually handheld or mounted on a tripod over a control point. No equipment is left overnight.
- No noise or disturbance is expected from this work.
- Work may be delayed or rescheduled due to weather conditions or unforeseen circumstances.

## The Ontario Line

15.6 kilometres of transit service

Making it faster and easier for hundreds of thousands of people to get where they need to be

Over 40 new connections to GO train lines and existing subway, streetcar, and bus lines.
